**HEDERA HELIX TACONICI** (Improved form of English Ivy) **Taconic Ivy.** A new hardier form than the common English type. Tough leathery foliage. Rapid grower. Original stock grows in northern Dutchess County where winters are real severe. Shows no signs of winter injury. We are still growing only limited quantities. Three year test plantings indicate that this Ivy does equally well in sun or shade and in windy locations as GROUND COVER. More than average amounts of lime added to the soil produces excellent dark green foliage, turning bronzy in the fall. Strong 1 yr. stock from 2¼ & 2½" deep rose pots, grown in outdoor frames: Mostly 2 runners per pot.

50,	\$11.00	18.00	165.00
-----	---------	-------	--------

(SHIPMENTS STARTING SEPTEMBER 15, 1959) **Reserve this ivy well in advance.**

All stock F.O.B. except as noted. **GOOD PACKING FREE.** Terms, net cash with order unless credit has been established. A discount of 2% will be allowed on invoices totalling \$50.00 or more for payment within 10 days after shipment or net 30 days. Shipments during January and February as ground and weather conditions permit. 300 or more plants at thousand rates.
